## **DIRECTIONS FOR USE**

The weights and dimensions per piece mentioned in this catalogue are the average and may vary within specific tolerances. It is important to know that the dimensions of the products are measured frozen (not baked). Please visit our website: www.panesco.com for more product information, up-to-date technical files and pictures.

## **BAKING INSTRUCTIONS**

Baking instructions differ according to the type of equipment. The mentioned settings were tested in different "hot-air ovens" (convection, bake-off ovens and/or steamers) and are the best common denominator to obtain the optimal baking result. It is recommended to pre-heat the oven 30 degrees above baking temperature. Please keep the key of the oven closed on Croissants and other Vienoisserie for the first 8 minutes of the baking process. All other products are recommended to be baked with an open key for a crispier result. Always bake following instructions and allow loaves to rest for an hour before cutting.
